Bantam eggs are coming soon. Smaller, 'gamier' and higher on the health scale, bantam eggs are like nothing you've ever tasted before.

Squirrel Farm is a 'food forest', a work in progress and a living art installation. You have to see it to believe it.

No herbicides, pesticides or chemical fertilizers are ever used on the produce we grow here. The list of available produce varies throughout the season. If you don't see what you want, ask: 971-645-5232.
